

New Teacher Websites of Interest 2008/2009

The following list of websites should provide a fertile hunting ground for new teachers. The list is by no means exhaustive. Rather, it is meant as an introduction to the resources available to you on the Internet in addition to what is offered by the district. Please note: these websites were current as of this summer. If you should find that some sites are no longer in existence or you find other helpful sites that are not on this list, please contact the Office of the Superintendent of Instruction with your information.

Resources for New Teachers

National Association for Beginning Teachers
